**UNLIMITED Curb Appeal** because beautiful homes deserve beautiful entryways.

## You're in expert hands.

Choosing a Therma-Tru door means designing an inspired entrance with the confidence that it will perform for years to come.

Whether it's Classic or Contemporary – or somewhere in between – Therma-Tru offers a selection to complement the architecture of any home and a homeowner's sense of style.

With a complete door system engineered with craftsman precision and backed by more than 55 years of industry experience, you can be confident that it will perform as exceptionally as it looks.

That's where the beauty of choosing Therma-Tru begins.

## A history of innovation.

It was a bold innovation for the home-building market when we introduced an entry door that looked as beautiful as wood and was more durable. At Therma-Tru, we have been revolutionizing the industry from the start – a spirit you can continue to expect from the leading entry door brand most preferred among building professionals.\*

Our roots in the door industry go back to 1962, when David Welles purchased a bankrupt building supply company in Toledo, Ohio. In 1983, we launched our Fiber-Classic® style, the first fiberglass door on the market, creating a product never seen before: An entry door that looked as beautiful as wood but with exceptional performance. Learn more about Therma-Tru at [thermatru.com/history](http://thermatru.com/history).

## Building stronger partnerships and better entryways.

“Builders rely on us to provide products that will perform. The warranty gives us confidence to offer Therma-Tru® doors to our customers. That, and we’ve never had any problems with Therma-Tru doors. The product quality is consistent.”

**“Therma-Tru also offers one of the largest glass selections available in the industry and the most true-to-wood look on a fiberglass door.”**

**Kevin K., Overhead Inc. in Ohio**  
*More than 25 years using Therma-Tru*

# Engineered to work together.

Therma-Tru specifies all of the components to work together at the most critical points where an ordinary door system's performance can fail, letting in air and moisture.

By forming a tight seal against drafts and leaks, these components can help protect the door system and home against costly damage and deterioration.

- ❶ Sill
- ❷ Bottom Sweep
- ❸ Corner Seal Pads
- ❹ Hinges
- ❺ Weatherstrip
- ❻ Multi-Point Locking System
- ❼ Glass Options
- ❽ Finish – Paint or Stain

Learn more about our system components at: [thermatru.com/system-components](http://thermatru.com/system-components).

## Backed by our lifetime limited warranty.

We can stand behind more parts and for longer than other door companies because we make or specify everything that goes into our door systems. The homeowner has one source, Therma-Tru, to turn to if an issue arises with the door system.\* Other companies either don't warrant as many parts of the door system or warrant them for a shorter period of time. That could leave the homeowner without coverage and confused about who to turn to if issues arise.

### Warranty Coverage

<b>Therma-Tru. Fiberglass Doors Lifetime Limited Warranty</b>	<b>LIFETIME</b>	<b>LIFETIME</b>	<b>LIFETIME</b>	<b>LIFETIME</b>	<b>LIFETIME</b>	<b>LIFETIME</b>	<b>LIFETIME</b>
Other Fiberglass & Wood Door Companies' Warranties	1 Year–Lifetime	0–20 Years	0 Years	0 Years	0 Years	0 Years	0 Years

Note: See your Therma-Tru seller or visit [thermatru.com/warranty](http://thermatru.com/warranty) for details on limited warranties and exclusions.

\*Excluding improper assembly of components into a door system by the distributor, dealer, builder or remodeler, and the installation of the door system.

\*\*Excluding installations within 5 miles of a body of salt water and the finish.

\*\*\*Excluding normal wear and tear.

## Tested for endurance.

Go ahead and slam the door if you want. We did – over and over – to make sure our doors, glass and components live up to your toughest expectations. We expose them to extreme weather conditions. We roll heavy objects over our sills. We immerse parts with metal finishes in corrosive salt atmospheres. And we expose them to ultraviolet (UV) light to make sure our weathersealing parts and metal finishes can resist deteriorating and color fading in the sun. That's how we know that a Therma-Tru® door is designed to stand up to almost anything life throws at it. Learn more about our quality testing at: [thermatru.com/performance](https://thermatru.com/performance) data.

## Choosing a durable door.

Kids, pets and neighbors come and go all day long. Which means that when it comes to choosing a new door, reliability and durability matter.

More than 80% of Therma-Tru door and glass options – thousands of choices – are ENERGY STAR® qualified.

# The fiberglass difference.

With very little maintenance, a fiberglass door can bring a home years of beauty, durability and energy efficiency. Therma-Tru® fiberglass doors offer the authentic look of wood. But, unlike wood, fiberglass will not warp or rot. And, unlike steel, it will not dent or rust. Built with a polyurethane foam core, Therma-Tru fiberglass doors insulate against cold and heat for exceptional energy efficiency. Learn more at [thermatru.com/choosefiberglass](http://thermatru.com/choosefiberglass).

## The look of real wood.

Realistic wood grains that are virtually indistinguishable from high-grade wood doors, thanks to Therma-Tru's AccuGrain® technology.

## Award-winning doors.

Classic-Craft® entry doors are rated a *Consumers Digest* Best Buy for their exceptional warranty, quality of materials and construction, and resemblance to a real wood door. Fiber-Classic® entry doors are rated a *Consumers Digest* Best Buy for their exceptional warranty, breadth of style options and wood-grained texture. Learn more about our award-winning doors at [thermatru.com/awards](http://thermatru.com/awards).

## The power of curb appeal.

A new entry door can pay for itself – and then some – giving you and your customers more bang for your buck.

### Perceived Value

A smart investment, a new Therma-Tru® entry door can increase a home's perceived value by **4.2%** or **\$18,750** on average.\*

### Return On Investment

Homeowners who choose a stylish new Therma-Tru® entry door can see **more than 2 times** the return on their investment.\*

Learn more at [thermatru.com/curbappeal](http://thermatru.com/curbappeal).

\*Not based on actual home sales. Not a guarantee of investment returns, increase in value or selling price. Based on a nationwide survey of consumers' estimates of perceived home value based on exterior appearance. Results may vary based on region and home style. Therma-Tru's "National Home Valuation Study" was commissioned by Therma-Tru in 2015 and conducted by TNS, and independent provider of internet-based research.
