

Maintain your high standards down to the last detail

Allura Trim delivers the finishing touch your quality workmanship deserves. Its unsurpassed fiber cement durability, machined square edges for crisp lines, and reversible smooth or textured surfaces all come together to showcase your unwavering attention to detail.

BETTER ALL AROUND

- Authentic wood look
- Reversible cedar/smooth board for added versatility
- Won't rot, warp or splinter
- Requires no special tools/cuts and installs like wood
- 15-yr Warranty

Allura Trim*

TIE IT ALL TOGETHER

Thanks to our special fiber cement formulation, Allura Trim has all the advantages of wood and none of the hassles. It looks like wood yet is incredibly durable. It won't rot, warp or splinter and is designed to significantly outperform wood in every way. Best of all, there is no

need for special tools on the job site. Our Trim can be cut with the same saw blades and installed with the same tools normally used for wood products. Why bother with wood? Trim provides the look and long-lasting protection you need to bring your home that all-important finishing touch.

Allura Tundra Trim*

WHEN YOU NEED THE TOUGHEST TRIM OUT THERE

Made from our proprietary blend of specially engineered polymers and a unique manufacturing stretching process, Allura Tundra Trim will withstand even the harshest environments. Engineered to be incapable of absorbing water, it won't crack, warp, cup, rot, corrode, expand or contract. Thus, it can be installed against the roof line or right down to the ground without the need to leave the typical gap. With durability like that, no wonder Tundra Trim is backed by an industry-best 25-year warranty.
