Style + Performance + Service = The Fypon Advantage

Fypon gives design and construction professionals an edge over all other interior and exterior design building materials. Fypon marries style and performance with one of the industry's largest product offerings and best customer service to give our customers a true competitive edge.

FYPON STYLE

Fypon is the recognized leader in polyurethane product design, innovation and molding technology. From old world style to classic modern design, Fypon offers the largest and most architecturally correct styles and designs of moulding and trim.

- Architecturally correct and historically accurate product styles and designs
- Our products are designed to capture the texture, patterns and deep shadow lines of classic building materials
- A distinctive look and personality to complement any home design for maximum appeal

FYPON PERFORMANCE

Fypon engineers consistent quality and long lasting performance into every product we make. From our trim and mouldings, to our balustrade systems and decorative millwork, each product is manufactured by experts in polyurethane molding technology. All Fypon building products:

- Are easy to install with no special tools or extra labor necessary
- Deliver consistent workmanship and product quality
- Feature low maintenance
- Provide weather and moisture resistance
- Resists insects and won't warp, crack or split
- Come stain or paint ready

FYPON SERVICE

Building professionals trust Fypon to deliver on the jobsite and to the bottom line with outstanding customer service and support.

- Architects and builders are provided renderings and marketing support for blue prints and model homes
- An industry-first quote package program with quantity pricing tools is available at CPS@fypon.com
- We provide installation FAQs (frequently asked questions) and support from Fypon experts
- Custom design services for historical restorations, replicas or any unique profile that fits your home or commercial application, available at CPS@fypon.com

UNDERSTANDING THE FYPON CATALOG AND PRODUCTS

Browse our polyurethane and PVC catalog for smooth products, column wraps and QuickRail design elements that will add distinction to your next project. Discover window and door trim, crossheads, gables, pediments, corbels, rafter tails, column wraps and so much more. Fypon products offer a unique way to enhance the architectural style of your home that create harmony through historically accurate and detailed products that bring out the best in any home. In this catalog you will find:

- Sizing for each part – height, width, length and projection
- Detailed drawings
- Part numbers
- Beautiful images that offer great ideas for many of our products

CUTTING & MILLING

Fypon polyurethane products can be cut and trimmed with standard woodworking tools.

- Table saws, circular saws, jig saws, band saws and miter saws will give you excellent results during the installation process.
- Trimming product will remove smooth finish and create an exposed polyurethane edge. This edge must be finished with paint or stain to protect the exposed polyurethane from discoloration from the sun.

For more information on the installation and care of Fypon products, please visit www.fypon.com.

CUSTOM/TAKEOFF

Fypon offers architects and builders custom design services for historical restorations, replicas or any unique profile that fits your project. Our design experts will provide a customized takeoff plan specific to your project, detailed with part number and list price. For these services contact CPS@fypon.com or call 1.855.397.6647.

FYPON
Where style meets performance

Exceptional Entrances

Window & Door Trim

Adding Fypon® window and door trim takes the look of a home from ordinary to extraordinary. Many pieces are designed to work together, and some can even be ordered moulded as one piece to further speed installation. From crossheads, pilasters and pediments, to arches and panels, our architectural options easily enhance a home's curb appeal. Browse our Window & Door section to find the products you need or visit www.fypon.com.

How to Use This Section

The products in this section of the catalog are organized by size, from smallest to largest. Where applicable, part numbers are shown for products with attached accessories, or other available unattached accessories are referenced or shown with the product.

How to Order

Window Trim

To order window trim, first measure the window unit to be trimmed. Then choose the desired products and accessories to complete the look.

Door Trim & Entrance Systems

When ordering door trim, first measure the door unit to be trimmed. The unit can be measured with or without brick mould; however, the brick mould is essential when using a storm door. Next, choose the desired pilaster style and size. Finally, choose a pediment or crosshead that is wide enough to span the opening plus the brick mould and pilasters. Add desired accessories to complete the look.

Door Surround Kits

Specifying a Door Surround Kit is straightforward: Simply answer a few basic questions, such as single door, single door with one sidelite, single door with two sidelites or double door. Pilasters and crossheads come in a variety of styles and sizes to fit any door. The pilaster can be purchased in a plain or fluted design. Coordinating crossheads for the top of the door frame are available with or without a keystone.

Remember to Order Adhesive

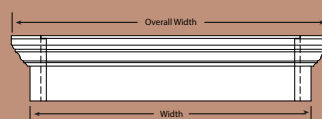

A urethane-based adhesive **must** be used on all joint surfaces. See page 192 to order Loctite® PL Premium® Adhesive.*

Window & Door Trim Accessories

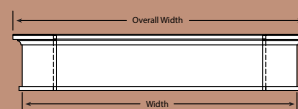

Keystones, dentil trim, trim strip and bottom trim accessories are available attached to standard products as fabricated products. Keystones can also be ordered as unattached accessories.

Window & Door Trim Applications

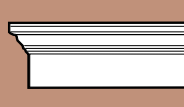

CH Crosshead with End Caps

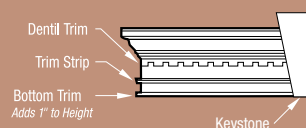

Craftsman Cove Crosshead with End Caps

Without Accessories

NEW

Meet our new products for today's popular home styles

Introducing the latest innovations from Fypon: More styles, more options and more flexibility with our two new crosshead programs, and our new Shaker Shutter program. Now you have even more ways to get the right product at the right time, install quickly, and save time and money.

Our new **Craftsman** and **Distinction Crosshead** programs allow you to purchase product that fits the needs of your business.

Trimable

- Purchase product in lengths to be cut at the job site to exact measurements

Ready-to-Install

- Order product to the size required in 1" increments from 24" to 216"

On the following pages, you will find detailed information about our new Craftsman and Distinction crosshead programs. The Craftsman Cove and Craftsman Step crosshead designs reflect the simple, straight lines that define the Craftsman era. Our new Distinction crosshead program offers a traditional, yet updated look that fits many home styles.

New products for built-in curb appeal

For the finishing touch, use our new **Shaker Shutters**. They are uniquely designed in a 2-flat recessed panel stile and rail construction, for a look that honors the timeless architectural style of both modern adaptations and classic Craftsman homes. With deep roots in American history, and known for its simple design and open floor plans, Craftsman style homes have seen a significant resurgence in popularity. These shutters help you satisfy customers who want a Craftsman look, plus they will add grace and charm to the many other home styles you build or remodel, including Prairie, Modern Farmhouse and Colonial.

- Available in three widths: 12", 16" and 18"
- Heights from 24" to 120" in 1" increments
- All available in our standard lead time

For your convenience, we've placed our new window and door products in the following section for you to easily locate part numbers, sizing, options and how to order.

To find out more about how our new products can keep you on-trend and give you a competitive advantage, contact your local sales representative.

NEW

Trimmable Crossheads

When the plan falls short!

Crosshead too short

Crosshead too long

The Solution... Trimmable Crossheads

- Eliminate the need to order various crosshead sizes
- Measure and cut at jobsite to exact requirements
- Easily adjust and customize for the opening (door, window, garage)
- Trimmable crossheads aid in faster and more accurate installation

FYPON
Where style meets performance

Details, Details

Mouldings

Whether your project calls for delicate Florentine trim, massive cornice mouldings, or anything in between, we offer a variety of beautiful options that range from simple to ornate. Our portfolio of tasteful, inspired styles is available in a range of sizes and combinations, so you can enhance a home's character — and the homeowner's satisfaction. Browse our Moulding section to find the products you need or visit www.fypon.com.

How to Use This Section

The products in this section of the catalog are organized by architectural style. You can find a variety of products to match the aesthetics of almost any application conveniently grouped together. Where applicable, groups of mouldings are further sorted by height, from smallest to largest.

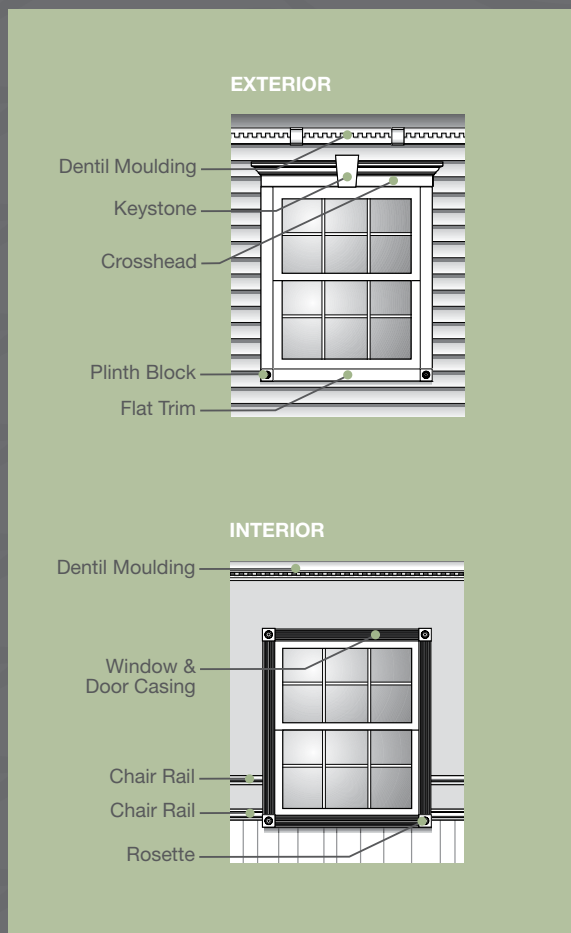

How to Order

Mouldings

First choose the product that best fits your application. The large variety of sizes and styles can be applied to any home. Mouldings can be used individually or combined to create a new and distinctive look.

Moulding Accessories

The accessories shown here are available to help make moulding installations quick and easy. Rosettes can be used between moulding lengths to eliminate the need for patching to create smooth seams. All rosettes are unattached and must be ordered separately. Refer to page 90 for moulding accessories.

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 192 to order Loctite® PL Premium® Adhesive.*

Table & Blade Angles

For recommended table and blade angles for mitering 90° corners, please visit the product support section at www.fypon.com.

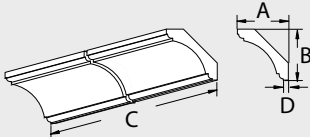

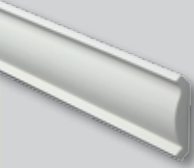

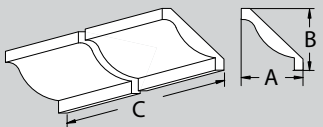

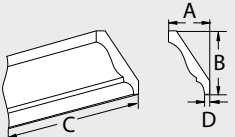

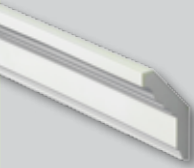

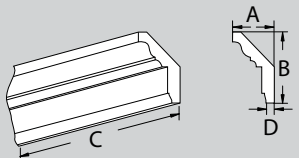

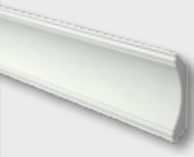

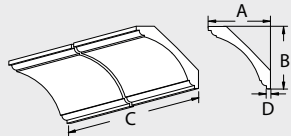

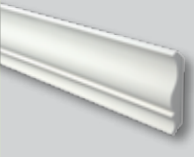

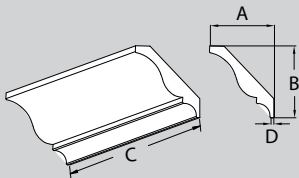

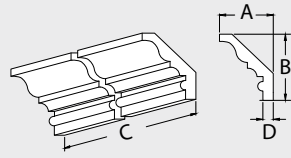

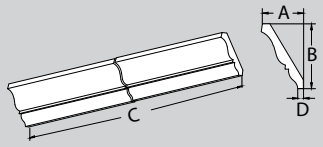

* Loctite® PL Premium® is owned by Henkel IP & Holding GmbH.

Always consult the local building code authority to determine suitability of products to meet specific project requirements.

Images are representative of style, actual product will vary by size.

FYPON
Where style meets performance

Defining Design

Decorative Millwork

For the ultimate finishing touch, decorative millwork is the perfect choice for both interior and exterior applications. Fypon craftsmanship is evident in every exquisite detail. From brackets, dentil blocks and gable pediments to ceiling medallions, our collection of architecturally accurate decorative millwork will expand your design possibilities for a room — or an entire home. Browse our Decorative Millwork selection to find the products you need or visit www.fypon.com.

How to Use This Section

The products in this section of the catalog are organized by architectural style. You can find a variety of products to match the aesthetics of almost any application conveniently grouped together. Where applicable, groupings of brackets, corbels and dentil blocks are further sorted by height, from smallest to largest.

How to Order

Decorative Millwork

The first step when ordering decorative millwork is to determine the type of product needed. Then find the proper size for your specific application by measuring the width and height.

Decorative Millwork Accessories

Some decorative millwork products have accessories available or are an accessory to another product. All decorative millwork accessories are unattached and must be ordered separately.

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 192 to order Loctite® PL Premium® Adhesive.*

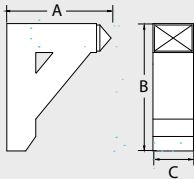

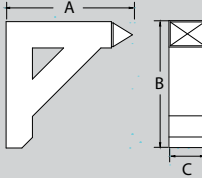

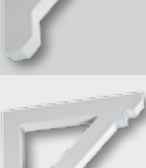

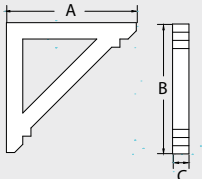

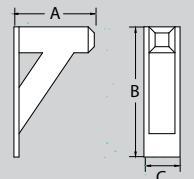

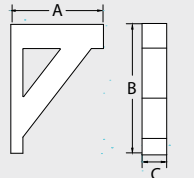

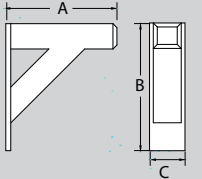

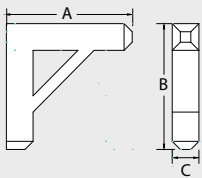

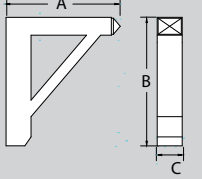

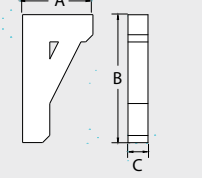

* Loctite® PL Premium® is owned by Henkel IP & Holding GmbH.

Always consult the local building code authority to determine suitability of products to meet specific project requirements.

Images are representative of style, actual product will vary by size.

FYPON
Where style meets performance

A Fresh Look

Louvers & Gable Vents

Louvers have been a useful design accent for centuries. For today's homes, Fypon offers an incredible variety of decorative (non-venting) and functional (venting) louvers to fit most architectural styles. Decorative louvers have a solid, one-piece design that does not allow air to pass through. Functional louvers are designed to provide additional ventilation, with angled slats to help protect interiors from the elements. The inside of the functional louver has a corrosion-resistant screen that helps keep insects out while allowing airflow between the slats. Accessory pieces, such as flat trim and keystones, are available for most louver styles to add another beautiful touch. Browse our Louvers & Gable Vents selection to find the products you need or visit www.fypon.com.

How to Use This Section

The products in this section of the catalog are organized by louver style followed by matching trim. Where applicable, matching keystones are referenced for each louver and trim piece.

How to Order

Louvers

The first step when ordering a louver is to find the proper size for your specific application by measuring the width and height. Then find the louver you need to order by locating your desired style with corresponding measurements on the following pages.

Functional Louvers**

If you are ordering a functional louver, you should order a louver that is approximately 2" larger than your rough opening on all sides of the louver. This will allow you to attach the louver to the substrate through the brick mould edge.

Louver Accessories

Keystones and trim are available pre-attached to standard products as fabricated items. Keystones and trim can also be ordered as unattached accessories by listing the matching part number as a separate line item on your order.

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 192 to order Loctite® PL Premium® Adhesive.*

FYPON
Where style meets performance

Sophisticated Spaces

Balustrade Systems, Porch Posts & Columns

Transform any ordinary porch, patio or balcony into an impressive outdoor living area with our balustrade systems, porch posts and columns. The distinctive styles and sizes available make these systems an eye-catching accent for many home designs. Fypon balustrades are made from corrosion-resistant parts that require little maintenance. Most fasteners remain totally hidden to provide a clean, classic appearance from any view. Our porch posts and columns are designed to be beautiful, as well as durable, with high-density polyurethane construction and structural reinforcement. Made of the same durable polyurethane material featured in all our products, most balustrade parts are also structurally reinforced. Browse our Balustrade Systems, Porch Post and Columns selection to find the products you need or visit www.fypon.com.

How to Use This Section

The products in this section of the catalog are organized by style and then size. Once you determine the style of balustrade system desired, you can find the right size for your project with all the parts and accessories needed to complete the system, conveniently grouped together.

How to Order

Balustrade Systems**

Fypon® smooth balustrades are available in three systems: 5", 7" and 12". This size designates the width of the top and bottom rail. In addition to these three sizes, we offer a stone-textured system, which has a 6" wide top and bottom rail. The stone system can be found in the Timber & Stone catalog.

Planning Your Layout

Balusters

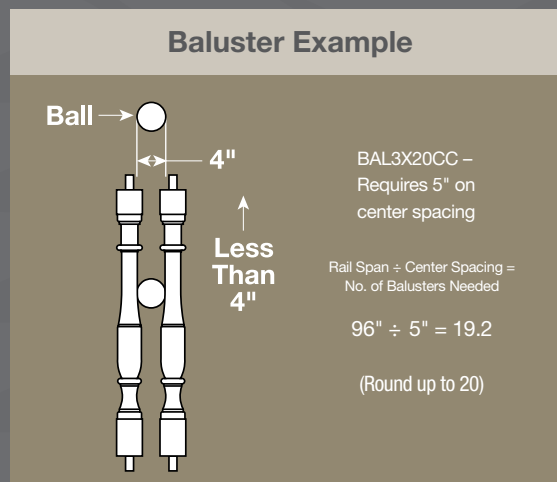

For each baluster, we have noted a center spacing dimension. This is the maximum center-to-center distance between balusters that does not allow a 4" ball to pass through at any point. The number of balusters you need can be found by dividing the rail span, in inches, by the center spacing dimension shown under each part.

NOTE: When dividing gives you a fractional result, always round up to the next whole number as shown in the example.

Rail Installation Kits

Each rail section (span between two newel posts) will require two rail installation kits. Rail installation kits will connect both ends of one rail to a newel post.

NOTE: Fypon rail installation kits will not work on stair applications. Top and bottom rails do not come pre-drilled.

Newel Posts

Each newel post will require one newel post installation kit (NPK) to anchor the base of the post, as well as any post tops, balls or trim collars desired.

Balustrade System Accessories

Balustrade system accessories are available to help achieve your desired look. All balustrade accessories are unattached and must be ordered separately.

Structural Porch Posts & Columns**

Structural porch posts and columns are reinforced and have load-bearing capacities as noted. Installation hardware is included. Simply choose the column or porch post desired in a height that is equal to or slightly larger than the required height. Porch posts and columns can be trimmed to various lengths without affecting load rating. Be sure to order the appropriate quantity of porch posts and columns to adequately support the weight of the load they will carry.

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 192 to order Loctite® PL Premium® Adhesive.*

* Loctite® PL Premium® is owned by Henkel IP & Holding GmbH.

** Always consult the local building code authority to determine suitability of products to meet specific project requirements.

Images are representative of style, actual product will vary by size.

Coverage with Character

PVC Column Wraps

Once you've met the structural requirements of your project, Fypon® PVC column wraps can add an elegant finishing touch. Designed to install easily around an existing structural support, Fypon column wraps allow you to add the sophistication of traditional columns near the end of your project. So whether you need to add character to a new job or cover an outdated design, our column wraps offer many options for creating curb appeal. Browse our Column Wrap selection to find the products you need or visit www.fypon.com.

How to Use This Section

For ease of use, the product groupings in this section of the catalog are organized by size, from smallest to largest. Each product chart includes product images, dimensional data and part numbers to help specify, and promote Fypon® PVC column wraps.

How to Order

Fypon Column Wraps**

Fypon column wraps are non-structural and simply wrap around an existing treated wood post or other structural support. Column wraps come in a complete kit that includes the shaft, cap, base, installation cleats, installation kit* (hardware and tube of adhesive) and installation instructions. Choose between various tapered and square styles with a height that meets or exceeds your height requirement. Flat panel column wraps can be trimmed to any height, and all other styles are trimmable from the bottom of the shaft up to 3".

Column Wrap Accessories

Square column wraps come with the traditional cap and base. Tapered column wraps come with the Craftsman cap and base. Six additional cap and base styles are available and ordered separately. Simply choose a style and specify the type (square or tapered) and the nominal size of the column wrap you are matching. Most of the caps and bases are constructed of PVC (unless otherwise noted) and ship in four separate pieces with pre-mitered corners.

Special Order Products

PremiumSelect products shown in the catalog is also available in additional sizes. Product may be modified to minimum 6" width to a 24" maximum width. The height may also be modified with a minimum height of 48" to a maximum of 144" height (maximum 108" for tapered).

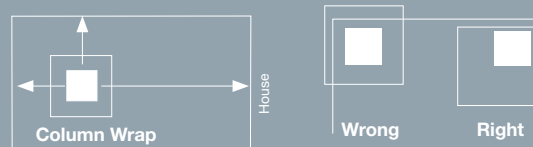

Flexible Positioning PremiumSelect Column Wraps

Fypon column wraps allow for flexibility in positioning. The design features installation cleats on the exterior of the shaft for PremiumSelect providing ample room around the support post. This allows for positioning adjustments to align several columns in a row or to allow for positioning close to the porch edge. Also, because the column wrap does not come in contact with the structural post, the integrity of the wrap is not dependent on the support.

Flexible positioning around support post

Before you order, you'll want to measure to make sure you have enough clear distance from the support post to the edge of the porch. The needed space is dependent on the style of column. You will need more space for tapered columns than square due to the larger base.

Allow adequate distance when choosing wrap width.

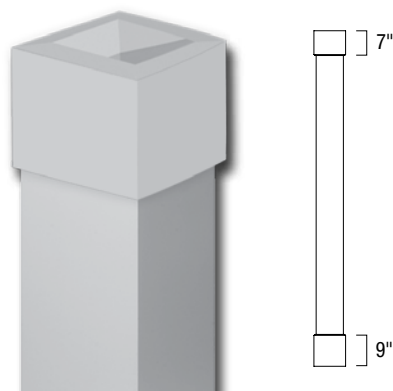

* Sold separately for ProSelect Column Wraps

** Always consult the local building code authority to determine suitability of products to meet specific project requirements.

Images are representative of style, actual product will vary by size.

QuickRail
BY FYRON
SYNTHETIC RAILING SYSTEM

Polish with a Purpose

QuickRail® Systems

Beautiful railings are made more durable, thanks to our special manufacturing process. They are virtually maintenance free, and resist decay, warping, fading, chipping, splintering and rust. And simple, step-by-step installation instructions help ensure all QuickRail products live up to their name. Browse our QuickRail selection to find the products you need or visit www.fypon.com.

How to Use This Section

For ease of use, the product groupings in this section of the catalog are organized by size, from smallest to largest, where applicable. Each product chart includes product images, dimensional data and part numbers to help specify, source and sell Fypon® QuickRail® synthetic railing systems.

How to Order

QuickRail® Systems

QuickRail rail kits are available for both straight and stair applications. Each kit includes a deluxe top rail, a flat bottom rail, spindles, a crush block, brackets, bracket covers and the necessary screws for fast installation. Rail kits can be attached to a wall, newel post or porch post.

NOTE: QuickRail stair rail kits cannot be attached to round columns or 45° post applications.

First, plan your layout, as shown here, by determining the size and configuration of your porch, including any stairs. The most important step to building your order is creating an accurate layout. Check local building codes to determine minimum guardrail height, maximum rail span and structural post requirements for your area. Determine the number of rail and post kits you need to accommodate your layout.

Next, choose spindle style. Then find the part number of the rail kit that meets your style, length and height requirements.

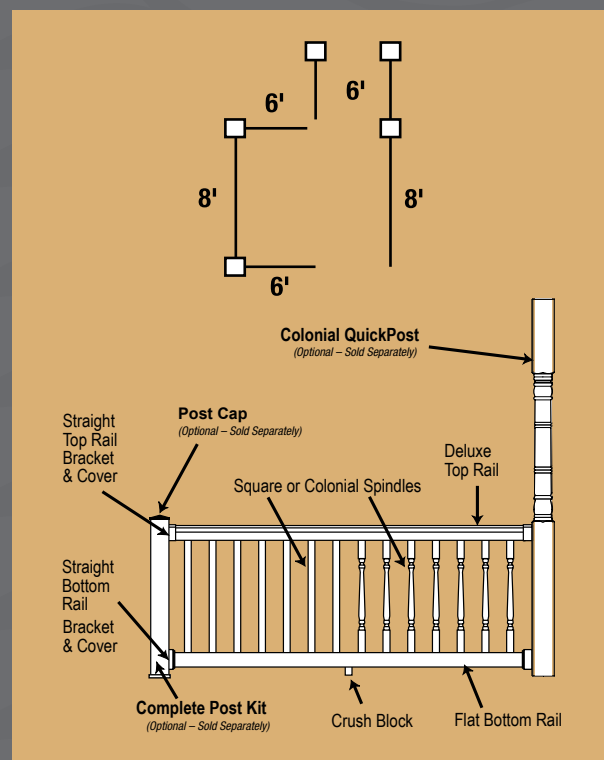

Finally, determine size and style of any accessories needed to achieve the desired look.

QuickRail® System Accessories

A variety of accessories are available to create your own unique system, including post kits, post sleeves, gate kits, porch posts and grab rails. If you have an application where additional or unique connections are required, bracket and adapter kits are sold separately. Individual components are also sold separately.

Special Order Products

Some products shown in this catalog include special order options. This means the product is available in additional sizes or with additional accessories. Throughout this section, special order part numbers are marked with an asterisk (*).

Building Code Compliance*

QuickRail products are building code compliant when installed on structural surfaces no more than 30" above ground. The 8' and 10' rail kits include a top rail aluminum insert that must be used in any installation. The 6' rail kits do not require an insert. In applications above 30", only rail lengths of 10' or less mounted between our ultra post kits or 4"x4" posts with post sleeves are building code compliant. The complete post kit with standard post mount can only be installed in applications that are less than 30" above ground.

Fypon has received confirmation from ICC Evaluation Service, LLC (ICC-ES), that its QuickRail synthetic railing systems comply with the provisions of the International Building Code and International Residential Code. The ICC-ES confirmation, published in evaluation report ESR-2601, will help code officials approve use of QuickRail systems under the codes. The Fypon evaluation report is available online at www.icc-es.org.

* Always consult the local building code authority to determine suitability.

QuickRail® Railing Kits

Options & Features

- Height Options: 36" or 42" guardrail height
- Length Options: 6', 8', 10' or 12' nominal length
- Spindle Options: Colonial or Square
- Finish Color: White (standard) or tan (special order)
- Application: Straight or stair (30°-40° slope)
- Additional Accessories: Multi-angle brackets, 45° adapters and curved adapters are available as special order
- Conveniently packaged in one box, each kit includes a top rail, a bottom rail, spindles, brackets, bracket covers, a crush block, structural insert* and screws

Kit Contents

Straight & Stair Rail Kits

Each straight or stair rail kit includes the following:

- Deluxe Top Rail
- Top Rail Structural Insert (Not Included in 6' Kits)
- Colonial or Square Spindles
- Bottom Rail
- Crush Block
- Brackets & Bracket Covers
- Screw Pack

Finish Colors

QuickRail products come in our vibrant white or tan UV-protected finish.

Tan

White

NOTE: Printed colors may not be an accurate representation of actual product color.

* Structural insert is not included in the 6' kit.

NOTE: Always consult the local building code authority to determine suitability.

System Accessories

Complete Post Kits

The Complete Post Kit comes with a standard post mount and can be used to connect rail sections on substrates with elevation of 30" or less. Complete Post Kits include a cap, base, standard PVC post mount and the necessary hardware for installation on both pressure-treated wood decking and masonry surfaces.

Kit Contents:

- (1) Post Sleeve
- (1) Taper Cap
- (1) Post Base
- (1) Standard PVC Post Mount
- (1) Hardware Kit

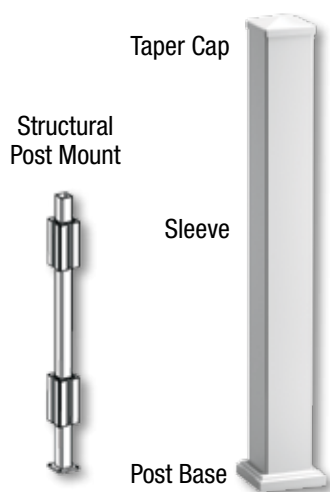

Post Size	Inside Width	Post Height	White Part Number	Tan Part Number

Hardware Kit	Hardware Kit is included in all Complete Post Kits, but can also be purchased separately.		4005ACQHDR	

Ultra Post Kits

The Ultra Post is a structural, commercial-grade newel post that can be used on substrates with elevations higher than 30". Ultra Post Kits include a cap, base, structural post mount and the necessary hardware for installation on either wood / composite or concrete / masonry surfaces.

Kit Contents:

- (1) Post Sleeve
- (1) Structural Post Mount
- (1) Mounting Hardware (for Pressure-Treated Wood or Masonry)
- (1) Taper Cap
- (1) Post Base

Gate Kits

Gate kits come with a latch, hinges and mounting hardware, and are available in 36" and 42" heights. The gate kit components are pre-cut to fit a 37 1/2" wide opening but can be trimmed for smaller applications. Be sure to check local building codes for any dimension requirements when planning your system layout.

Kit Contents:

- (1) Deluxe Top Rail
- (1) Flat Bottom Rail
- (5) Spindles (Colonial or Square)
- (2) Post Sleeves
- (2) Taper Caps
- (1) Gate Hardware Kit

IMPORTANT: Gate kit should NOT be attached to complete post kit. It is recommended to attach the gate kit to a structural 4"x4" or 5"x5" treated post covered with a post sleeve.

QuickPost® Synthetic Porch Post

Structural Post with Lifetime Finish

QuickPost® synthetic porch posts are the perfect complement to our QuickRail® systems. Featuring the same lifetime finish as all QuickRail system components, the vibrant color is virtually maintenance-free and never needs to be painted.

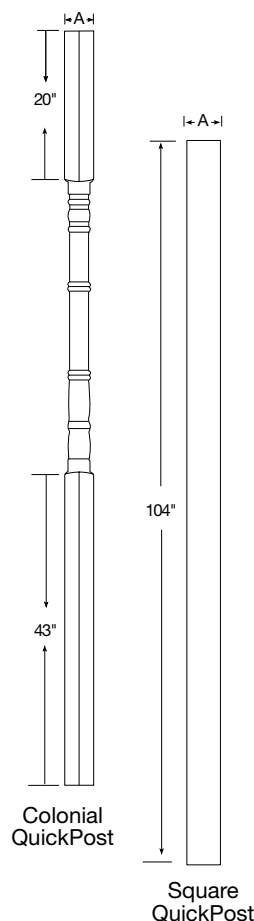

- Structural post with steel insert
- Precise colonial detail
- Trim to fit your project
- Designed for use with QuickRail systems
- Virtually maintenance-free
- Limited lifetime warranty^

Product Details

- Shell is composed of UV-protected vinyl
- Internal core includes a structural, galvanized steel tube
- Kit includes mounting plates and screws
- Trim kit available (sold separately)

Product Options

- Sizes: 5" or 6" nominal width
(Actual widths are 4 1/4" or 5 1/4")
- Finish colors: White (standard) or Tan (special order)
- Accessories: Trim kit available (sold separately)

QuickPost® Synthetic Porch Post

Post Size	Actual Width (A)	Load Bearing Capacity	White Part Number	Tan Part Number	Post Style
4" x 4" x 8' 8"	4"	3,000 lbs.	40500488SQ	—	Square

NOTE: Dimensional drawings are approximate representations. Do not scale.

Parts may be required to ship LTL (less than truckload) based on size and overall dimensions.

Grab Rail Handrail System

Fypon® grab rail perfectly complements all QuickRail® synthetic railing systems. The grab rail system is easy to install and can be mounted to QuickRail® complete post kits (in applications less than 30" above ground) or an existing wall. **IMPORTANT:** The illustration below is intended to show how the system components are used together. Grab rail must be attached to a guard rail in applications above 30".

- Meets ADA requirements
- White UV-protected finish resists fading
- Never needs painting
- Can be used with QuickRail systems
- Virtually maintenance-free
- Limited lifetime warranty[^]

Grab Rail Components

Description	Part Number
1 1/2" x 8" Round Handrail with Aluminum Insert	44020812GR*
Aluminum Straight Connector	44020000AC*
Aluminum Universal Elbow Connector	44021212UC*
3" In-Line Mounting Bracket (Screws Included)	44020000AB*
6" Outside Corner Mounting Bracket (Screws Included)	44020006AB*
90° Aluminum Post Return (Screws Included)	44020090PR*
90° Outside Corner Elbow	44020090OC*
"P" Loop Return	44020000EL*
5° Radius Elbow	44020005EB*
32° Radius Elbow	44020032EB*
36° Radius Elbow	44020036EB*
38° Radius Elbow	4402038SEB*
90° Radius Elbow	44020090RE*
End Caps	44020000EC*
Mounting Bracket Insert	44020000MB*

* Part numbers marked with an asterisk (*) are special order.

Parts may be required to ship LTL (less than truckload) based on size and overall dimensions.

Adhesive & Finishing

A urethane-based adhesive such as Loctite® PL Premium® Construction Adhesive* must be used on all joints when installing urethane products. This will minimize the effects of expansion and contraction on the product. For additional information on adhesives, detailed installation instructions and finishing information, please visit www.fypon.com.

Loctite® PL Premium® Adhesive

Part Number	Description
	ADH1 Loctite PL Premium Adhesive
	(1) 10.2 oz. Cartridge

Considerations for Installation

Fypon reserves the right to make changes to our product with the assurance that we will meet or exceed quality requirements. Changes to product could include standardization across parts that may impact blocking applications, but visual impact will not be noticeable and parts will align. If it is critical to have consistency between parts for installation purposes, please speak with your Customer Service Representative prior to placing your order at 800-446-3040.

Material Comparison	Fypon® Polyurethane	Wood	Composite
May Be Placed Against Masonry	YES	NO	NO
Above-Grade Distance Requirement**	0"	8"	6"
Water Absorption	NO	YES	YES
Insect Resistant	YES	NO	NO
Moisture Resistant	YES	NO	NO
Pre-Drilling Required When Edge Nailing	NO	YES	YES
Requires Sanding, Priming & Sealing	NO	YES	YES
Painting (Number of Coats Needed)***	1	2	2
Quality	Consistent quality, no waste; consistent finish	Natural variation; must be culled	
Versatility**	Suitable options for interior or exterior application	Different grade of material and finish required for outdoor use	

* Marks denoted by (*) asterisk are owned by third parties.
 · Loctite® PL Premium® is owned by Henkel IP & Holding GmbH.
 · Sherwin-Williams is owned by SWMC, Inc.

** Always consult the local building code authority to determine suitability of products to meet specific requirements, as well as adhesive manufacturer's recommendations for your particular climate and the substrate you are installing to.

*** Fypon product should be painted within 90 days of installation.

Finishing Touches

Primer Color Match Available at Sherwin-Williams

To better service our customers nationwide, we have worked with Sherwin-Williams* to formulate a color and sheen match for our factory-applied primer.

Fypon® White:

Resilience® Exterior Latex*
 Product # K42W51
 Sheen: Flat
 Base: Extra White
 No colorant needs to be added to the formula.

Fypon® Oatmeal:

Resilience® Exterior Latex*
 Product # K43W53
 Sheen: Satin
 Base: Deep Base
 Quart and gallon formulas are shown below.

Quart Formula

W1 – White 4/32, 1/64
 B1 – Black 7/32, 1/64, 1/128
 R2 – Maroon 4/32
 Y3 – Deep Gold 15/32, 1/64, 1/128

Gallon Formula

W1 – White 18/32
 B1 – Black 31/32, 1/128
 R2 – Maroon 15/32, 1/64
 Y3 – Deep Gold 63/32

Fypon® Black Primer:
